GENERAL ACCOUNT CONDITIONS

- To determine the annual percentage yield, we assume the interest will remain on deposit until maturity. A withdrawal will reduce earnings.
- Interest begins to accrue for the deposit of non-cash items (for example, checks) no later than the business day credit is received under the applicable availability schedule established by the Federal Reserve pursuant to the Expedited Funds Availability Act and Regulation CC.
- We use the daily balance method to calculate the interest on this account. This method applies a daily periodic rate to the principal in the account each day.
- If funds are withdrawn from this account before maturity, an early redemption penalty will be imposed, unless the withdrawal is due to death or incompetency of an owner. If the account automatically renews, the owner(s) may withdraw all or part of the balance of the account on any maturity date or within ten (10) calendar days thereafter without penalty. The penalty is at the interest rate being paid at the time of withdrawal and applies regardless of the length of time the funds have remained on deposit.
